Importance: High

We will not have our weekly call this Friday and will resume with a call on January 3d with USFS, EPA, and the Corps – others may join if they wish. (b)(5) - deliberative

In order be productive, it is important that the conversation on the 3d be informed by a (b)(5) - deliberative. Please revise or update the views previously expressed by noon on January 2d so that I can compile the comments and distribute them in advance of the Friday 3pm call.

The final comments on the views should be sent to me by close of business on the 7th (note that the due dates have been extended since our conversation last Friday – the new dates provide some additional time for those constrained by the holiday schedules). Our call on January 10th will be informed by the legal views developed during a call with the legal beagles on January 6th at 4pm eastern, as well as the mitigation views.

Here is a compilation of the current draft views:
